In 2013, worldwide
ONLINE gambling
revenue was about
\$37 BILLION.

**And \$4.5 billion of that
total was from gambling
using a mobile device,
such as a cell phone!**

Source: Statista 2014

Our fun, interactive, **CGAP** workshops,
adapted for your particular audience, are
designed to raise awareness about the dangers
of gambling, especially gambling online. Through
engaging in lively discussion and a variety of
games, participants will:

- Identify the risks and consequences of gambling.
- Discover the effects of gambling on the brain.
- Learn about the cycle of addiction.
- Distinguish between games of skill and games of chance.
- Find out how to get help.

**Gambling “lights up” the
brain like a drug. Gambling
addiction can cause long-
term problems with
decision-making and with
controlling behaviors.**
